

## temp Bedienungsanleitung Stand 11/2018

### **temp: klapp- und rollbarer Stehtisch**

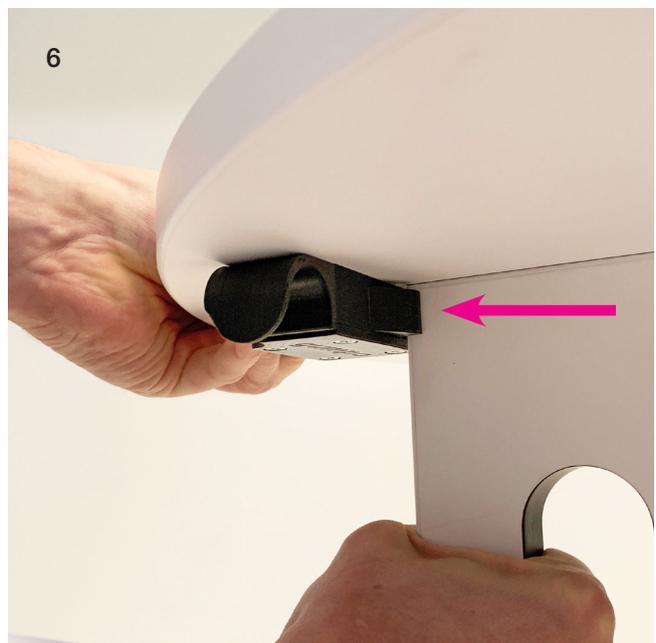

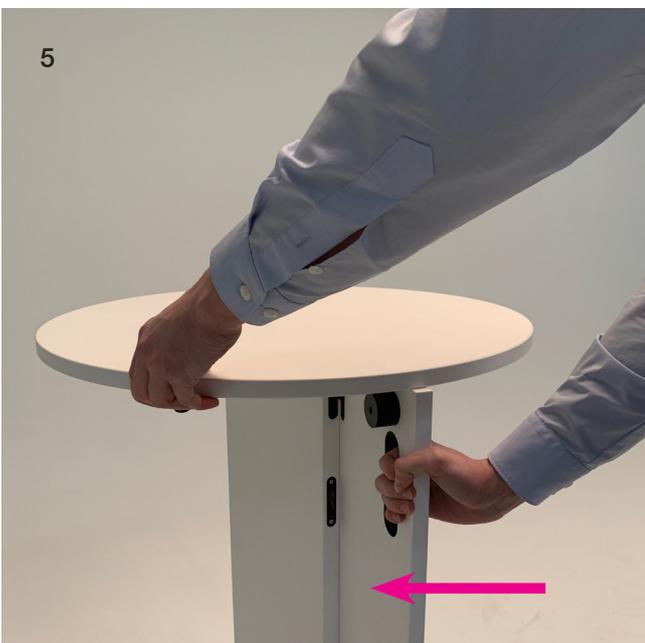

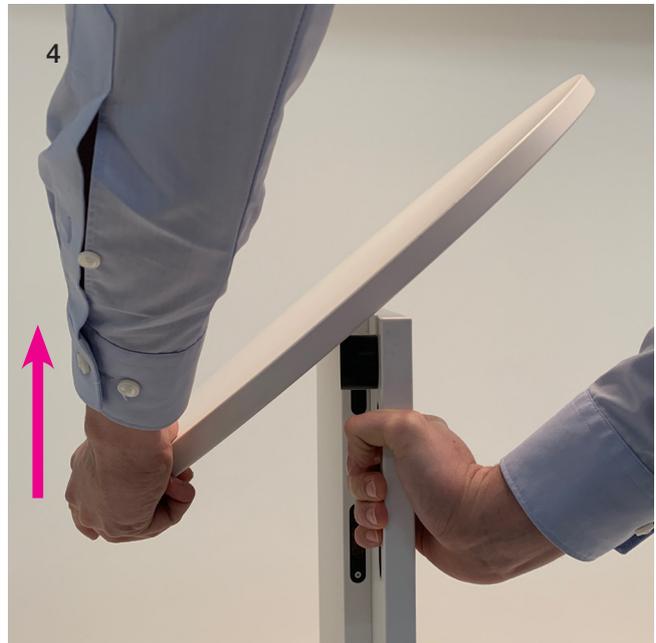

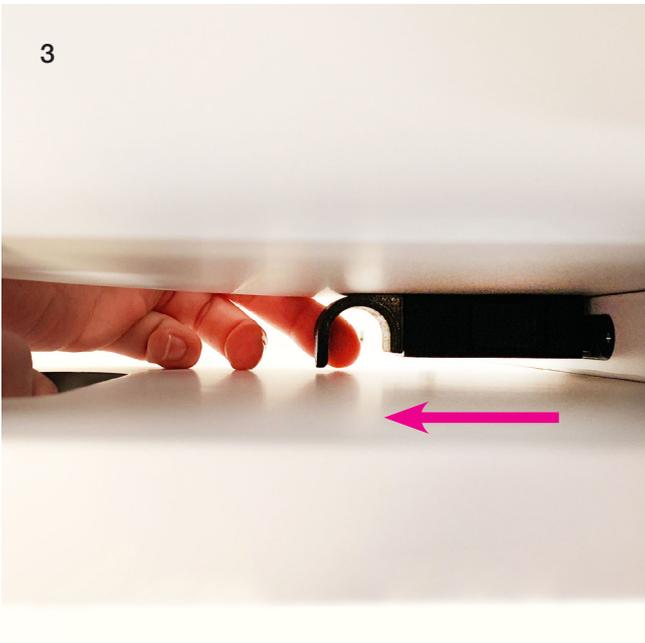

Wenn es mal schnell gehen soll, wird temp im Handumdrehen mobil: Die Querwand einfach drehen und die Tischplatte einklappen, dann lässt sich der Stehtisch bequem bewegen und platzsparend verstauen. Ein ausgeklügelter Einrastmechanismus sorgt dafür, dass temp sicher steht.

### **temp: folding and rollable high table**

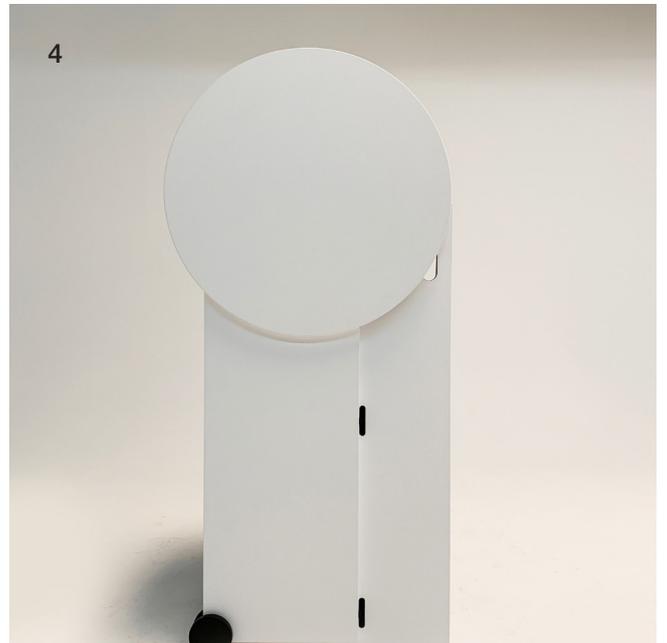

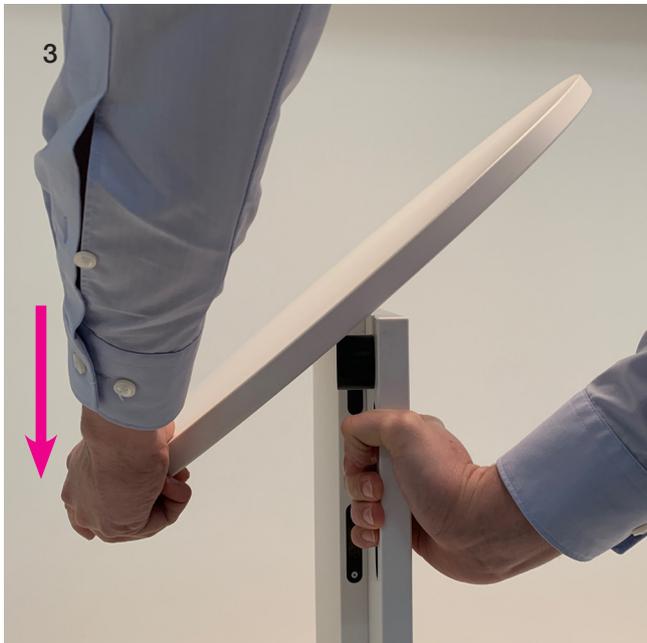

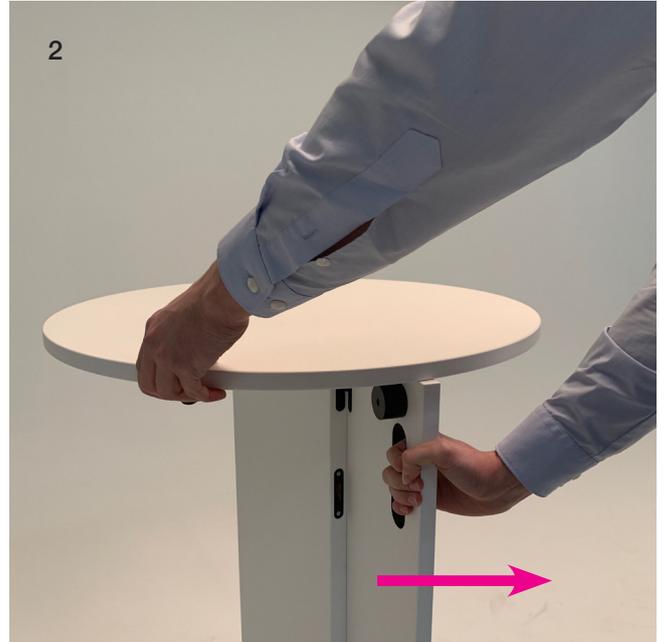

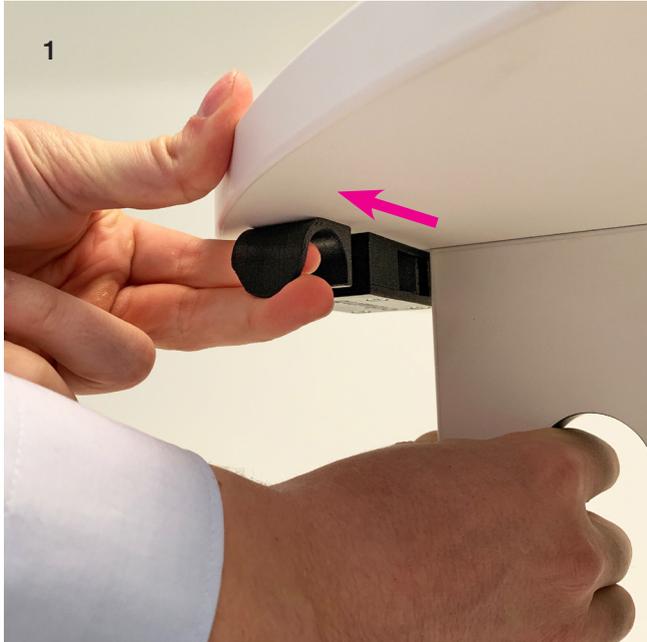

When things have to go quickly, temp can be mobile in the wink of an eye. Simply turn the transverse panel and fold up the table top, then the high table can be easily moved and tucked away to save space. A well thought-out locking mechanism ensures that temp stands firm.
